

EXPRESSLINK

LASER CUT DESIGN INFO SHEET

- We can cut all types of fabrics and leather up to 2mm in thickness
- The appearance of the cut edge varies depending on the fabric content. Generally synthetic fibers create an invisible edge, while natural fibers have a burnt edge. The discolouration on the burnt edge does reduce with washing
- Swatches of a minimum 10cm x 10cm can be sent for testing for \$3 each
- Maximum design area is 1.6m x 2.5m
- Fabrics must be flat to ensure even cutting, you may be charged for pressing if the fabric is excessively creased
- We can provide a quote if you submit your digital design and fabric
- Prices are charged per piece and vary depending on the complexity of your design and the thickness of the fabric
- Lead time is 2 – 10 working days
- Designs:
 - Digital or hand drawn designs to be submitted by email to info@expresslink.com.au
 - Designs should be created with a series of vector lines
 - Digital designs must be submitted as a **.ai or editable .pdf** Adobe Illustrator file
 - Scaling 1:1
 - All lines must be 0.25pt wide
 - Lines must have a black outline and no fill
 - Minimum 3mm buffer between shapes
 - We can digitize your design and merge it with your garment pattern at \$70 per hour
- Fabrics can be posted to:
